

NHER Accreditation Scheme Insurance – Key Features

Professional Indemnity Insurance Policy

- Cover is for up to £1m. The minimum required by CLG is £50k, but our higher level provides much greater protection
- The excess in the event of each and every successful claim is £250
- The policy is in our name, so there are no run-off issues – you will not need to keep up your policy for 6 years if you decide not to continue as a Domestic Energy Assessor
- The cost of the insurance is included in the report registration cost – so there are no additional fees to pay

Public Liability Insurance

- Cover is for up to £5m
- Excess is £250 in the event of any successful claim
- Again, the cost is included in the report registration cost

We are providing independent DEAs with the critical professional insurance cover they require. This is a key benefit of joining The NHER Accreditation Scheme.
