

RDSAP Data Collection

A two-day course covering RDSAP conventions and data collection

Overview

The energy used in UK homes now represents the largest proportion of total national energy use. European and national regulations are forcing both improved standards and improved reporting on energy efficiency. The methodology for collecting this energy efficiency data is called RDSAP.

This two-day course is designed to give candidates an understanding of RDSAP and to train them in RDSAP data collection conventions. All candidates that attend will receive a CPD certificate to show they have been trained in the collection of RDSAP by the NHER.

What does the course cover?

The NHER is the UK's first and largest energy rating scheme. Members of the NHER include more than 200 Local Authorities, over 130 Housing Associations, 8 energy suppliers, over 900 builders, including the top ten, and more than 250 consultants, architects and surveyors. This course is run by Richard Macphail, Senior Consultant for the NHER.

- Background to Energy Performance Certificates and Government legislation
- Theory of energy ratings, U-values, ventilation, data collection forms and RDSAP
- Assessment conventions: built form, age, drawing a sketch plan, habitable rooms and property dimensions
- Heat loss perimeter, extensions, conservatories, room in the roof, solar panels, alternative walls and how to deal with flats
- Exercises on completing RDSAP forms
- Heating and hot water
- Tour of a house – completing the RDSAP forms and using the software

Moving forward

After attending this course you may decide to undertake full training to become a Domestic Energy Assessor. If you have completed this introduction to RDSAP, you will be entitled to leave out certain aspects of the DEA training and train at a reduced price.

Booking details

The course costs £450 + VAT (£517.50), and is undertaken at the NHER's training facility in Milton Keynes. For dates, and to book your place today, please see the booking form over the page.

RDSAP Data Collection

When and where

30 & 31 July	25 & 26 Nov
1 & 2 Oct	
The National Energy Centre, Davy Avenue, Knowlhill, Milton Keynes, MK5 8NA	

Terms and Conditions

On completion, this document represents a legally binding contract in which the following Terms and Conditions apply.

- The event is organised by National Energy Services (NES).
- Confirmation of registration, location details and/or map of venue and receipt will be sent as our acknowledgement of booking.
- Payment in full is required before the event.
- Cancellations must be made in writing and will be subject to a 25% administration charge. No refunds will be made for cancellations made within 15 working days of the event.
- Substitute delegates will be accepted at any time but NES must be notified in writing of such substitution.
- You may transfer to alternative events provided that we are notified in writing, and the application to transfer is made more than 15 working days prior to the event. After that date a transfer fee of £45.00 is payable.
- NES is not liable for any financial costs or charges incurred by delegates in attending the event or for any personal loss or damage how so ever incurred.
- It may be necessary for NES to change the venue and/or speakers without prior notice.
- NES reserves the right to cancel an event.
- The information provided will be held by NHER and may be used to keep you informed of future NHER events, products and services.

To book your place on the NHER's **RDSAP Data Collection** training course, please complete the form below. Return it to The NHER, National Energy Services, The National Energy Centre, Davy Avenue, Milton Keynes, MK5 8NA or return by fax to 01908 242010.

I wish to attend the following (please tick):

- 30 & 31 July
- 1 & 2 Oct
- 25 & 26 Nov

Title	First name	Surname
