

Building Regulations Part LIB – Existing Dwellings

Helping NHER Assessors get up to speed

Many common projects are subject to the guidance of Part LIB of the Building Regulations. These include the extension, alteration, or renovation of existing dwellings, and ‘change of use’ of other types of buildings into dwellings. NHER Assessors are well-equipped to support such projects, to identify specification options and to demonstrate how they comply with the requirements - but the process can be complex.

Why you should attend

The NHER has devised a short one-day training course for NHER Plan Assessors that will give practical guidance on how to demonstrate compliance with Part LIB. The course explains the requirements in detail, covers straightforward alterations and extensions, and then goes on to deal with complex situations, such as combinations of extension and renovation, over-glazed extensions and cases where compliance has to be demonstrated by ‘trading off’ carbon dioxide emissions using SAP 2005.

The course includes case studies of real projects and advice about how to approach complex projects, making best use of NHER Plan Assessor software. It runs from 10am to 4pm, and includes lunch.

At the end of the training delegates will have understood:

- The requirements of the Building Regulations, Part LIB (2006)
- How to assess and demonstrate the compliance of alteration and renovation projects
- How to assess and demonstrate the compliance of extension projects
- How to deal with conservatories and over-glazed extensions
- When it is appropriate to use SAP assessments to demonstrate compliance by ‘trading off’
- The complexities of listed buildings and how to overcome them
- How to present Part LIB compliance assessments to Building Control

Presenters

Peter Rickaby, John Willoughby, Alan Pither and Ian Orme

Peter Rickaby, from Rickaby Thompson Associates, was closely involved in the Part L consultation process and has delivered seminars and training on Part L for over 5000 building and housing industry professionals, over the past five years.

John Willoughby has over thirty years' experience of energy in buildings. He has been an NHER assessor and trainer since the scheme started in 1990.

Alan Pither has over 20 years' experience of working in the energy efficiency, fuel poverty and renewable energy fields, and also has extensive experience of environmental assessments. He has been an NHER assessor and trainer since 1991.

Ian Orme is a Director of Rickaby Thompson Associates Ltd. He is an NHER Assessor; BREEAM for Offices and Industrial Units Assessor; an Approved Consultant under the Carbon Trust's Energy Efficiency scheme, and a leading consultant in the ventilation of buildings.

Building Regulations Part L1B – Existing Dwellings

When and where

10 February 2010	The National Energy Centre, Davy Avenue, Knowlhill, Milton Keynes, MK5 8NA
7 April 2010	The National Energy Centre, Davy Avenue, Knowlhill, Milton Keynes, MK5 8NA
19 May 2010	The National Energy Centre, Davy Avenue, Knowlhill, Milton Keynes, MK5 8NA

Terms and Conditions

On completion, this document represents a legally binding contract in which the following Terms and Conditions apply.

- The event is organised by National Energy Services (NES).
- Confirmation of registration, location details and/or map of venue and receipt will be sent as our acknowledgement of booking.
- Payment in full is required before the event.
- Cancellations must be made in writing and will be subject to a 25% administration charge. No refunds will be made for cancellations made within 15 working days of the event.
- Substitute delegates will be accepted at any time but NES must be notified in writing of such substitution.
- You may transfer to alternative events provided that we are notified in writing, and the application to transfer is made more than 15 working days prior to the event. After that date a transfer fee of £45.00 is payable.
- NES is not liable for any financial costs or charges incurred by delegates in attending the event or for any personal loss or damage how so ever incurred.
- It may be necessary for NES to change the venue and/or speakers without prior notice.
- NES reserves the right to cancel an event.
- The information provided will be held by NHER and may be used to keep you informed of future NHER events, products and services.

To book a place on the NHER **Building Regulations Part L1B – Existing Dwellings** event please complete the form below and return to: The NHER, National Energy Services, The National Energy Centre, Davy Avenue, Milton Keynes, MK5 8NA

Cost

NHER members

£250 + VAT (£293.75) per delegate

All bookings will be acknowledged and final instructions will be sent prior to the event. Refreshments and a light lunch are included in the price. Delegates will also receive a pack containing course handouts and a certificate for CPD purposes.

Coffee and registration is from 9.30am with the first session starting at 10am. We expect the day to close at around 4.30pm.
