

Changes in Building Regulations: Part L

Are you prepared for the 2006 update?

This one-day training event is designed to bring delegates up-to-date with the 2006 changes to the existing Approved Document to Part L of the Building Regulations, and their effects on the domestic building sector.

Why you should attend

This course will comprehensively cover the implications of the Part L update on the domestic building sector. By attending this course you will gain an in-depth understanding of the changes, helping you reduce the risk to your business. Part L of the new Building Regulations will help with the implementation into UK law of the European Performance of Buildings Directive, as well as playing an important role with the reduction of carbon emissions of dwellings to help meet Kyoto targets.

At the end of the training delegates will have understood:

- The background to the new requirements
- The requirements for new domestic buildings (ADL1A)
- The requirements for existing domestic buildings (ADL1B)
- SAP 2005
- The future of Part L: ODPM's plans for the 2010 update

Who should attend

- Builders and developers of new homes
- Builders undertaking work on existing homes
- Architects and Architectural Technologists
- Consulting engineers and other design professionals
- Clerks of Works and Site Managers
- Energy professionals working in the new homes market
- Building Control Officers

Presenter

Peter Rickaby and Ian Orme, of Rickaby Thompson Associates Ltd

Our speakers from Rickaby Thompson Associates Ltd have been closely involved in the Part L consultation process with ODPM, and have delivered seminars and training on Part L for over 1200 delegates over the last three years. They have over twenty years' experience as specialist energy and environmental consultants, including extensive work for ODPM, the Building Research Establishment and the Energy Saving Trust, as well as several hundred projects for developers, consultants, contractors and housing organisations. The company has made substantial contributions to the Energy Efficiency Best Practice in Housing programme, in the form of research into techniques for delivering energy efficiency, and the preparation of numerous Good Practice Guides and Case Studies. Rickaby Thompson Associates Ltd regularly presents courses for the NHER, CIBSE and Rickaby Thompson Associates on energy issues within buildings.

Changes in Building Regulations: Part L

When and where

27 October 2006 | December 2006

The National Energy Centre, Davy Avenue, Knowlhill,
Milton Keynes, MK5 8NA

Terms and Conditions

On completion, this document represents a legally binding contract in which the following Terms and Conditions apply.

- The event is organised by National Energy Services (NES).
- Confirmation of registration, location details and/or map of venue and receipt will be sent as our acknowledgement of booking.
- Payment in full is required before the event.
- Cancellations must be made in writing and will be subject to a 25% administration charge. No refunds will be made for cancellations made within 15 working days of the event.
- Substitute delegates will be accepted at any time but NES must be notified in writing of such substitution.
- You may transfer to alternative events provided that we are notified in writing, and the application to transfer is made more than 15 working days prior to the event. After that date a transfer fee of £45.00 is payable.
- NES is not liable for any financial costs or charges incurred by delegates in attending the event or for any personal loss or damage how so ever incurred.
- It may be necessary for NES to change the venue and/or speakers without prior notice.
- NES reserves the right to cancel an event.
- The information provided will be held by NHER and may be used to keep you informed of future NHER events, products and services.
